## Our Seminar Speakers

### The Groves Family

Ten years ago, Rory and Becca Groves moved their family to the country in Northfield, Minnesota from work in the tech industry with the hopes of building a more durable, self-sufficient life. Since then, they founded Gather & Grow Ministries, A Learning Farm, to help other families build their own family-based economies. We welcome them to Simpson Park for the first time and look forward to their participation in the services and at The Homestead as part of Heritage Day.
