Electronics Policy

GSL prefers that campers do not bring expensive electronics such as iPods, phones, tablets, or handheld games to camp. However, if you choose to allow your child to bring such items, please note that these items may not be used during camp hours. During regular camp hours, all electronics must be put away in the camper's backpack. Please be sure that each device is labeled with the camper's name. GSL is not liable or responsible for theft, loss, or any damages that may be incurred during camp hours. Campers are also not permitted to use the school network unless it's part of the camp activity. The WiFi password should not be shared with campers under any circumstances.
