

STEM Camp Newsletter

Vol. 2

Summer 2025

Announcements:

STEM Campers swim every Friday! Please send swim gear on Friday mornings if your camper wants to swim. Campers who don't want to swim will participate in other activities during swim time.

This Week:

THIS WEEK'S THEME:
VELOCITY RAPTORS

Week # 1 Spectacular Scientists

Purple Parrots
Josephine M.

Orange Iguanas
Alex H.

Blue Barracudas
Callan H.

Green Monkeys
Stewart P.

Red Jaguars
Gregory Z.

This Week's Highlights:

The summer kicked off with plenty of activities to help campers get to know one another and their counselors and instructors. Our theme for Week 1 was **Velocity Raptors**, a physics and engineering centered week where campers explored gravity, light, motion, and sound through hands-on activities.

Looking Ahead:

Week 2 theme is **Wild Wonders!** Campers will be immersed into an exploration of Earth science and ecology. Throughout the week, they will delve into the intricate systems of our planet, studying ecosystems, biodiversity, and natural resources.

Staff Spotlight:

This week we will meet the **Purple Parrots** leaders!

Amber writes, "This is my second summer at STEM camp. I'm most excited about our biology week! Currently I'm studying art and psychology at Concordia University in Montreal, Canada. When I'm not at camp, I enjoy playing with my dog Daisy and reading."

Jewel says, "This is my first summer at STEM Camp! I'm most excited to learn more about STEM and spend more time outside. I'm currently studying Theater and Political Science at Eastern Michigan University. When I have free time, I enjoy making and listening to music!"
